

DRAGONCOMMAND — COMPLETE FEATURE SET

 End-Game Vision (Completion checks are as of August 16, 2026)

PUBLIC WEBSITE

- ☒ Landing page (branded per grid)
- ☒ About page
- ☒ Grid Map (Leaflet.js, varregion support, Warp3D tiles, teleport links)
- ☒ Classifieds (live grid newspaper)
- ☒ Destinations guide
- ☐ Rentals & Land — Browse available land/rentals
- ☐ Events calendar
- ☐ How to Connect guide
- ☒ Registration (gated/open toggle)
- ☒ Login + Forgot/Reset Password
- ☒ Email Verification
- ☒ Firestorm Splash Page (DB driven, fonts, colors, stats, live preview)

RESIDENT PORTAL (/me)

- ☒ Dashboard (Egg/Fledgling status)
- ☒ Onboarding widget (3-step guided)
- ☒ Avatar Creation (name + starter picker)
- ☒ Profile (photo, about, picks, classifieds, friends with HG badges and online/offline indicators)
- ☒ Inventory (lazy-load folder tree, item icons, type badges)
- ☐ Inventory Phase 2 (IAR import/export)
- ☐ Rentals & Land — My rentals, payment due dates
- ☒ Message Center:
 - Offline IMs (read only)
 - System/Admin messages
- ☐ Friend-to-friend web messaging
- ☒ Currency (placeholder → economy TBD)
- ☒ Regions (live cards, estate, status)
- ☐ Region Controls Phase 2:
 - Restart region
 - Save OAR (with progress bar)
 - Load OAR (upload + progress)
- ☒ Settings (password change)
- ☐ Partnership/Marriage page:
 - Propose to friend (friends dropdown)
 - Accept/Decline pending proposals
 - Celebration animation (hearts + particles)
 - Dissolve with cooling-off period

ADMIN PANEL (panel.*)

- ☒ Command Center (live grid stats)
- ☒ User Management (DC + Robust merged, rank badges, search)
- ☒ Region Management (all regions, owner, estate, online status)
- ☒ Classifieds Moderation (hide/show)
- ☒ Ghost Hunter (D2/D7 emails, admin queue, cron 3AM daily, no auto-delete)
- ☒ Avatar Selector (starter avatars, photos, name reservations, blocked terms, validation rules)
- ☒ Map Settings (zoom, colors, featured region, marker styles, height)
- ☒ Splash Settings (content, fonts, colors, toggles, live preview)
- ☒ Message Center (compose, Message All, By Rank, Individual with autocomplete, expiry dates, sent history)
- ☐ Grid Activity / Who's Online (Presence table, HG visitors)
- ☐ Rentals & Land — Land/rental manager
 - Create listings
 - Set prices and tier sizes
 - Manage tenants
 - Payment tracking
 - Expiry management
 - Auto-reclaim settings
- ☐ Audit Log viewer
- ☐ Dragon Rank management UI
- ☐ Quick Map (utility grid planner, Available/Occupied/Var colored squares)
- ☐ Destinations admin manager

EMAIL SYSTEM

- ☒ Self-hosted Postfix + OpenDKIM
- ☒ Email verification (branded)
- ☒ Password reset
- ☒ Ghost Hunter D2 reminder
- ☒ Ghost Hunter D7 final warning
- ☐ Welcome email on avatar creation
- ☐ Partnership proposal notification

SECURITY

- ✓ HTTPS everywhere
- ✓ Cross-subdomain sessions
- ✓ Rate limiting
- ✓ Fail2Ban + UFW
- ✓ XMLRPC rejected - not used
- ✓ RemoteAdmin rejected - not used
- ✓ No auto-delete ever
- ✓ OpenSim never exposed to internet
- ✓ DC is the secure proxy
- ✓ .env files gitignored
- ✓ DKIM signed emails

DRAGON RANK SYSTEM

- ✓ 0 Hatchling (web account only)
- ✓ 1 Fledgling (avatar created)
- ✓ 2 Wyvern
- ✓ 3 Drake
- ✓ 4 Ancient
- ✓ 5 DragonMaster (main web admin)
- ☐ Rank assignment UI in admin
- ☐ Rank-based permissions

FUTURE / ADD-ON MODULES

MARKETPLACE (Paid Add-On)

- Product listings
- In-world delivery
- Revenue sharing (with PayPal & Stripe)
- Basic tier free (50 products)
- Full tier paid (unlimited)

JANUS/WEBRTC VOICE

- Replace FreeSwitch & others
- Grid-wide automatic
- No per-region setup
- No viewer config needed

MULTI-LANGUAGE SWITCHER

- Admin panel
- Frontend
- Per-grid language packs

MULTI-TENANT (Commercial License)

- Multiple grids per install
- White label (remove watermark)
- Per-grid billing
- For hosting companies

SPLASH PAGE BUILDER PHASE 2

(if requested)

- Drag and drop elements
- Free positioning
- Custom layouts
- Save as templates

LICENSING

Community Edition (CE):

GPL v3, single grid, watermark,
basic Marketplace (50 products)

Commercial Edition:

Multi-tenant, white label,
full Marketplace, priority support

DEPLOYMENT

- ☒ Scenario 1: Home server + Tailscale
- ☒ Scenario 2: DC on Robust server
(most common, localhost)
- ☒ Scenario 3: Enterprise multi-server
(NWG-scale, internal network)
- ☐ .env.example template for installers
- ☐ Installation documentation
- ☐ Docker deployment option

DragonCommand works with ANY OpenSim
installation that uses MySQL/MariaDB
